

GUARANTEED PRODUCTIVITY WITH YOUR SCHOBER MTP

Schober

WITH YOUR SCHOBER MTP YOU ARE
EASILY ONE STEP AHEAD OF YOUR
COMPETITOR WHEN PRODUCING
ELECTRONICALLY READABLE DATA
CARRIERS, SUCH AS ...

- ATB- and ATB2-tickets
- ATB-boarding passes and -wallets
- Parking tickets and ISO-cards, ...

The MTP is designed as an Off-line version to work with pre-printed paper rolls independently from your printing press.

The machine is built using SCHOBER's heavy duty construction to meet an excellent lifetime cycle, as well as to guarantee absolute production security.

The standard equipment of the MTP includes:

- Unwinding device
- Hot tape transfer unit
- Numbering and encoding
- Punching, length cutting device and cross perforation
- Folding device and conveyor table

Additionally there is available:

- Equipment for wallet production
- Equipment for single card production
- Rewinding device
- Automatic separating and stacking system

SCHOBER MTP - always a step ahead

Technical data

Range of application:
Standard and thermo paper from
120 - 200 gr/m²

Standard magnetic stripe width:
1/4" - 5/8" (6,35 - 16 mm)
1/8" (3,175 mm) upon request

Magnetic stripe type:
HICO and LOCO, prepared for hot
tape transfer

Standard working width:
10" and 20" (260 and 520 mm)

Mechanical speed:
up to 500 feet/min (150 m/min)

Working speed:
depending upon material, folding length,
ticket- and web width

Standard folding length:
7 1/3", 8", 10 1/2"

Air shaft:
3" - 6" (76 - 150 mm)
Unwind diameter:
up to 40" (max. 1.000 mm)

Connections:
Electric 400 V, 50 Hz, 3 phases + N + PE;
150 ampere. Compressed air 6 bar

Remarks:
Special sizes available upon request
